

KONVOX COVERING FILM PE AND HDPE

GENERAL INFORMATION

Konvox Covering Film is the reliable choice for protection during painting, renovations and storage. Made from high-quality polyethylene (PE) or extra-strong high-density polyethylene (HDPE), the film effectively protects floors, furniture and walls against paint splashes, dust and moisture.

SAFETY AND USE OPTIONS

1. Remove the packaging and dispose of it in the appropriate waste bin.
 2. Unfold the film and spread it over the floor, furniture or walls you want to protect.
 3. Cut the film to size if necessary.
 4. Ensure that the film fits snugly; secure it with tape if necessary to prevent it from shifting.
 5. Remove after use and dispose of it in the appropriate waste stream.
- Do not use near open flames or heat sources (flammable).
 - Store the film in a cool, dry place and protect it from direct sunlight.

DISCLAIMER

Choking hazard! Do not pull over your head; keep out of reach of children! Konvox accepts no liability for damage or defects resulting from incorrect use, unsuitable surfaces or use outside the scope of application as described above in the general and technical documentation. If in doubt or for special applications, we recommend that you contact your supplier in advance.
